Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

An amendment of 10/30/06 in response to an office action of 6/29/06 amended the drawings and claims 197, 202-204, 206-208, 213 and 214.

5 Claims examined on the merits are 197, 199, 200 and 202-214, which are all claims in the application.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

10 Claims 197, 199, 200 and 202-214 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

15 In line 8, claim 1 is confusing by not having clear antecedent basis for "the plurality of magnetic areas". After "areas", first occurrence, in line 8, it is suggested that --- to provide a plurality of discrete magnetic areas --- be inserted.

20 Claim 205 is confusing by requiring the "through-holes" to comprise a semi-permeable membrane. How holes can comprise a membrane is uncertain. The membrane should be required to comprise the holes.

In line 1 of claim 206, there is not clear antecedent basis for "the walls of the micro through-holes", and it is unclear how holes can have walls. Walls have not been previously required, and structure other than the holes should have the walls.

In line 2 of claim 207, there is not clear antecedent basis for "said magnetic material", and "associated with said magnetic material" is uncertain as to meaning and scope. It is suggested "associated with said magnetic material" be deleted.

5 **Conclusion**

The claims are free of the prior art.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension
10 of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after
15 the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX
20 MONTHS from the date of this final action.
